To Whom It May Concern:

Design Balance (Danny Ortega) has been our preferred Test and Balance Company for the last 5 years. We have worked together on projects from \$20,000 to \$1.5 million. They have always been attentive to the schedule and have in some cases provided more service than their scope of work. BroCon Inc is completely confident in their abilities and holds Design Balance in high regards. I highly recommend Design Balance for any of our T&B needs.
